

SUPPORT SYSTEM TRANSPORTATION FACILITIES

TRANSPORTATION FACILITIES

PROJECT SCOPE/DESCRIPTION: The maintenance and operations facilities have not been given sufficient attention over the last few years due to lack of a facilities plan. A plan has been developed that evaluated every structure. Other yard improvements may be identified in the Pollution Plan required for each yard. Planned facilities and improvements include: construction of a northern wing to the main administration building in Dover, upgrade of the administration building's boilers and HVAC chillers, and improved accessibility in accordance with ADA standards.

PROJECT JUSTIFICATION: Considerable effort in the next six years will begin to accomplish a goal to provide comparable facilities evenly across the state to meet the set criteria for employee needs as well as facilities to meet mission requirements, especially for emergencies. The primary focus in the beginning is on projects that have the most benefit for employees.
